

## THE BEANSTALK CHILDREN'S GARDEN MISSION

The mission of the Beanstalk Children's Garden is to inspire young people to make healthy food choices as they see, smell, touch, and taste growing plants. Today's students are active participatory learners. In the Beanstalk, they observe, infer, ask questions, and think reflectively in all of the six gardens: the vegetable garden, fruit garden, herb garden, seed and grain garden, curiosity garden, and the water garden. Beanstalk staff guide visitors' interactions with plants growing in the garden. Activities incorporate nutritional experiences with growing plants as the seasons change.

## THE KCCG MISSION

The KCCG Mission is to empower and inspire low-income households, community groups, and schools in the Kansas City Metropolitan area to grow their own fruits and vegetables.
